Priorities for Bi-Regional Cooperation between ICT PTs

- Cloud Computing, including security aspects
- Performance Computing (HPC)
- Experimental Platforms
- Future Internet (IoT, Smart Networks, etc.)
- Content technologies and information management
- Health, demographic change and wellbeing
- Secure, clean and efficient energy

Benefits for bi-regional collaboration on ICT

The main Benefits that BRAFIP offers for bi-regional collaboration on ICT are:

- Large number of research centers and enterprises;
- Help to find and choose the right brazilian partners for the projects;
- Information supply about market requirements;
- Help for definition of the projects and division of labor;
- Creation of opportunities and new businesses in both regions;

Thank you!

José Antonio Antonioni
